

Security Paste

Level 2 Tamper Evident Tape Closure: Middle Security, state of the art technologies Tape.

The Difference of Pouch Seal, Skirt Seal and Side Seal

Pouch Seal: The pouch seal is the most securityseal, because at the side of the bags there is a 10MM width print content was hot sealed makes it not easy to be cut, even if be cut it is very difficult to sealed well.

Skirt Seal: The side of the bag is hot sealed in two films and have a clear indentation with a thin line. and the seal can print some content also makes it difficultto be cut, so it also has a critical role in anti-theft.

Side Seal: The side seal is the most ordinary one, it consisted by two films and haveno pouch, it is easy to be cut and re-sealed well.

Level 2 Tamper Evident Tape

- 1. Normal Evident: Hidden message "VOID" appears when tampered in the normal temperature.
- 2. Cold Evident: Hidden message "VOID" word appears when tampered by using Freon or expose to the extremely cold temperature.
